

CURRICULUM of MARTIAL ARTS

Simone Rosetti

Born on November 12, 1978, he began practicing Aikido between 1994 and 1996 under the guidance of Prof. **Angelo Guerrieri** at the **Kiai-doai** dojo, which at the time had three locations: Ascoli Piceno, Pescara, and San Benedetto del Tronto (AP).

The dojo is affiliated with the Aikikai d'Italia, and Prof. Guerrieri has always followed Master **Hiroshi Tada**, a direct student of Aikido's founder, **Morihei Ueshiba**. Later, the dojo started following Master **Kaoru Kurihara**, who is also a direct student of Master Tada.

In 1996, Master Kurihara founded **Shinkido** and separated from Aikikai, creating his own school, the **Accademia di Studio del Ki**, which later transformed into **Shinkikai**. Shinkido focuses more on the martial aspect of the movement, initiating a new phase of study and research in the martial arts.

The practice of this discipline quickly proves to be very effective and fascinating, with stages held by the founder that are particularly interesting. The years from 1994 to 2008 are characterized by intense study and significant strengthening, aimed at stabilizing the techniques and their corresponding principles of application.

At the Kiai-doai dojo, the teaching and practice methods are strict and detail-oriented, allowing students to grow technically at a rapid pace.

In 2008, Master Kurihara asked Rosetti to open a dojo in his city to begin teaching, despite Rosetti having a rank lower than 1° Dan, because the founder appreciated his movement. Meanwhile, Prof. Guerrieri left Italy to move to Romania.

In February 2009, Master Kurihara awarded Rosetti the **1st dan**, giving rise to the **Shinkido Club SBT** (dojo section 12 Shinkikai). Subsequent recognitions from the founder include: **2nd dan** on June 30, 2013, and **3rd dan** on January 27, 2018.

In July 2021, Rosetti founded his own school, **A.S.D. Bushin SBT**, continuing to manage the Shinkido Club SBT. On September 5, 2023, he also began practicing **Wing Tsun** at **AWTI** (Wing Tsun Self-Defense Italy), a passion he finally got to cultivate.

Unfortunately, in October 2023, the founder of Shinkido passed away, and his younger son succeeded him. The Shinkido Club SBT continued to practice until June 2024.

On August 2, 2024, the section 12 club resigned from Shinkikai, initiating a new phase. In the same month, **SHIN JITSU** and its dojo were born. Rosetti defined this new martial art style called **SHIN JITSU**, which primarily studies techniques of **Ju Jitsu** and **Kempo**.

SHIN JITSU represents a natural evolution and synthesis of years of study and practice, maintaining and deepening the principles of Shinkido while renewing and adapting them to contemporary needs. The techniques are based on grips, strikes, breaks, imbalances, immobilizations, joint locks, projections, and close combat, suggesting versatility and completeness to address various martial and real-life situations.

SHIN JITSU is officially accredited and recognized by **AICS-CONI** under the **Ju Jutsu** family (S2690 - RASD: BO001 - CONI: BO001).

After careful evaluation of Rosetti's credentials and long journey, with 31 years of practice and 17 years of teaching, **AICS-CONI**, **ASD BUSHIN** and **DAI NIPPON BUTOKU KAI of Kyoto** awarded Rosetti the **4th Dan** with the title of **Master (Sensei)**.

November 19, 2025: Recognition: **4th Dan Master of Shin Jitsu style Ju Jitsu** by **Libertas Nazionale** according to S.na.Q. procedures with registration in the national register # 83576 > discipline code BO001

May 21, 2026: Recognition as **Master of Self-Defense** by **Libertas Nazionale** according to S.na.Q. procedures with registration in the national register # 91037 **Specialized Technician Instructor of Self-Defense Specialist – Ju Jitsu.**

May 23, 2026: Awarded as **Instructor of Excellence** in the Ju Jitsu sector at the CONI Hall of Honor.

June 30, 2026: Awarded as **Instructor of Wing Tsun** > A.W.T.I. (Autodifesa Wing Tsun Italia).
